

**TO WHOM IT MAY CONCERN**

Since taking part in Edensilk's cash collection workshop we have set up a much more efficient system at NRG FORCE to make sure money comes in quickly - without needing to chase.

Using Paul's recommendations we adapted the process to fit our needs and since we set it up haven't had to make a single call for late payment. Instead, by being more organised up front means money flows in much easier and no need to waste time with loads of follow up calls.

We'd recommend it to anyone who needs to improve cash flow.

Yours sincerely
