Subject: got a minute

Hello Paul,

Well, I am freaking out here. I can not explain how weird it feels that for the first time in the 3 years I have not been interrupted within a 20 minute period. We have just done our first 1.5 hour concentrated time and got a stupid amount of work done with not one interruption. Any way, I have to go and see if a few people have got a minute now.

Cheers

James Symons
