## REFERENCE LETTER

Edensilk has been a tremendous help to our organisation. Our financial systems are now running smoothly.

Paul MacKell carried out a full accounting review for us and methodically and carefully resolved a large number of issues identified in the Auditors Management Report. He also made recommendations about further work that needed to be done. We now have a part-time Book keeper along with our Admin worker who is able to oversee and keep the system going and ensure that monthly reconciliations are carried out in a proficient manner. Paul assisted with the Job Description and recruitment process.

We have found Paul to be extremely capable, confident and thorough. He is a very amicable person and got on well with all our staff. Even during stressful times he was a calming influence as he is extremely patient.

It was a complex exercise to change from QuickBooks to MYOB and a new customized database, however Paul succeeded in also reconciling a lot of our accounts along the way.

We would recommend Edensilk to anyone for sound, practical expertise and skills to carry out the work.

Yours sincerely

Kaz Stenberg  
Coordinator
